

European Raptor Biomonitoring Facility

Best Practice Guidance

Best Practice Guidance

Compilation of available data and best practice guidance for collection of contextual data and samples by provision of protocols and capacity building recommendations for its successfully implementation

ISBN

1. Introduction

2. Background and Purpose

Template

3. Biological assessment

3.1. Taxonomy and biogeographic populations

3.2. Distribution throughout the annual cycle

3.2.1 Movement (**only if relevant for the sp.**)

3.3. Habitat requirements

3.4. Survival and productivity

3.5. Population size and trend

Template

4. Threats

4.1. General overview

4.2. Mayor threats

4.2.1. E.g. Poisoning

4.2.2. E.g. Collision

4.2.3. E.g. Pouching

4.3. Other threats

4.4. Potential threats

Template

5. Research and conservation effort

5.1. Mayor research and conservation programmes

5.1.1 E.g. 1 Monitoring programme (title of the programme/project)

5.1.1. 1. Project outputs and deliverables

5.1.2 E.g. 2 Sampling programme (title of the programme/project)

5.1.2.1 Project outputs and deliverables

Template

5. Research and conservation effort

5.2. List of existing protocols, guidelines or reports regarding collection of contextual data

(Name of the document, brief description, for what can be useful and where can be found (to be provided annex or weblink for download))

5.2.1 Existing international/regional databases for collection of contextual data

5.3. List of existing protocols, guidelines or reports regarding collection of samples

5.3.1 Samples

(samples used in undertaken studies)

5.3.2 List of compounds analysed

5.3.2 Known contamination sources

Template

6. Recommendations and ERBF protocol/s

7. Stakeholders and potential collaborators

7.1. International stakeholders

7.2. National stakeholders

Template

8. Relevant policies and legislation

- 8.1. Legal status of the species
- 8.2. International relevant legislation
- 8.3. National legislation

9. Coordination and Implementation

- 9.1 Overall coordination
- 9.2. Coordination at national level
- 9.3. Capacity building

Template
