

ERBFacility

EUROPEAN RAPTOR BIOMONITORING FACILITY

PROOF OF CONCEPT

NATIONAL COORDINATORS

- NC were proposed for 38 out of 43 COST countries (88%)
- 31 of these accepted the role as NC (81%), which means 72% of the countries had a NC assigned
- 21 NCs sent a list of national contacts that may provide samples to ERBF
- 215 contacts were provided for 21 countries by the NCs
- 45 contacts (from 18 countries) sent a list of available raptor samples
- 46 additional contacts (from 24 countries) replied but did not send a list of samples

AVAILABLE SAMPLES

10 october 2020

TOTAL = 3071 samples

328 samples had no date; 389 samples from 1995-2009; 2354 samples from 2010-2020

3001 samples had location information

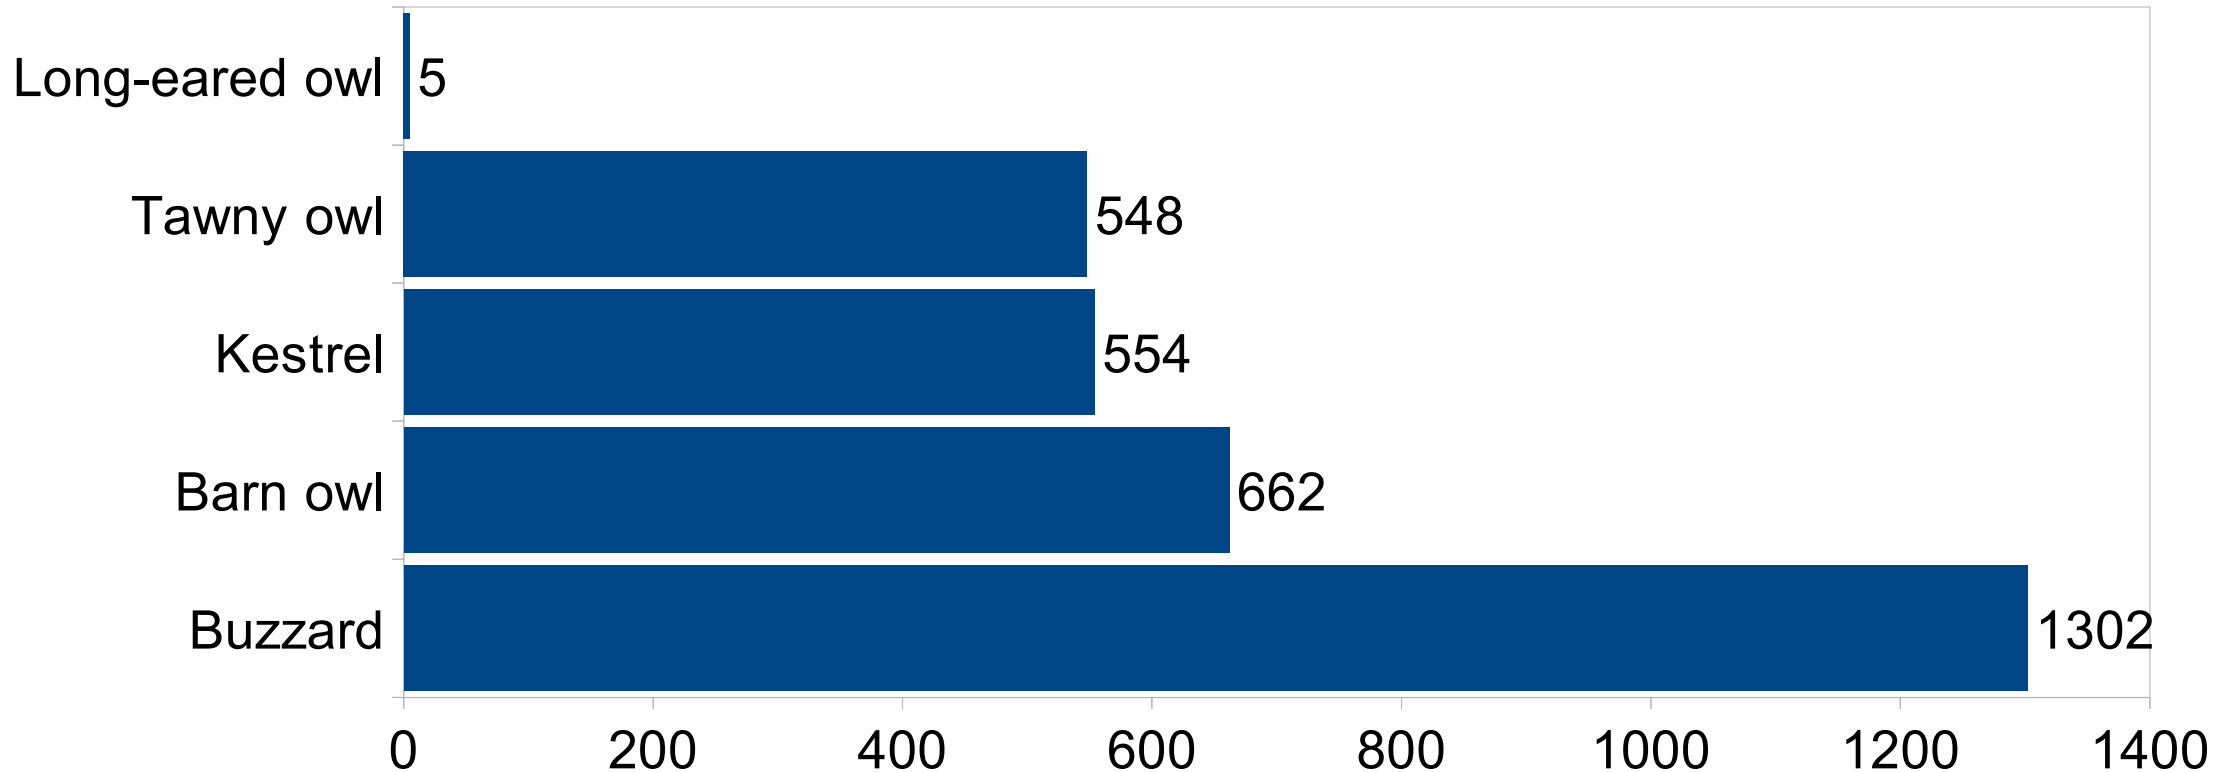

2597 samples were allocated to a 100x100km square (criteria: 2010-2020 with precise location)

264 squares (100x100km) had at least a sample from any species
